

LIGHTWILD PROJECT LINEAR

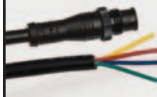

Photo	Part No. and Description
	LW-CBL-PLIN41-36-EXTN 3 foot (90 cm) extension cable for fixture-to-fixture connections. For fixture-to-power supply or fixture-to-control connections, this cable requires LW-CBL-PLIN41-5-TAIL.
	LW-CBL-PLIN41-120-EXTN 10 foot (3m) extension cable for fixture-to-fixture connections. For fixture-to-power supply or fixture-to-control connections, this cable requires LW-CBL-PLIN41-5-TAIL.

Photo	Part No. and Description
	LW-CBL-PLIN41-5-TAIL 5 inch (12.5cm) cable with stripped wires on one end and a fixture connection on the other. Stripped wires connect to a power supply or LightWild control unit. Specify one per home run.
	LW-CBL-PLIN41-BLANK A sealing cap that maintains IP65 rating of unmated connectors in a wet location installation.

LIGHTWILD LUMENPOWER LITE LINEAR

Photo	Part No. and Description
	LW-CBL-LUMPWRLITE-6-SC-TAIL Single-color LumenPower Lite 6 inch (150 mm) cable with stripped wires on one end and a fixture connection on the other. Stripped wires connect to a power supply or LightWild control unit. Specify one per home run.
	LW-CBL-LUMPWRLITE-6-RGB-TAIL RGB LumenPower Lite 6 inch (150 mm) cable with stripped wires on one end and a fixture connection on the other. Stripped wires connect to a power supply or LightWild control unit. Specify one per home run.
	LW-CBL-LUMPWRLITE-36-SC-EXTN Single color LumenPower Lite 40 inch (1 m) long extension cable with a jack on one end and a plug on the other end. For fixture-to-power supply or fixture-to-control connections, this cable requires LW-CBL-LUMPWRLITE-6-SC-TAIL.
	LW-CBL-LUMPWRLITE-120-SC-EXTN Single color LumenPower Lite 10 ft (3 m) long extension cable with a jack on one end and a plug on the other end. For fixture-to-power supply or fixture-to-control connections, this cable requires LW-CBL-LUMPWRLITE-6-SC-TAIL.

Photo	Part No. and Description
	LW-CBL-LUMPWRLITE-36-RGB-EXTN RGB LumenPower Lite 40 inch (1 m) long extension cable with a jack on one end and a plug on the other end. For fixture-to-power supply or fixture-to-control connections, this cable requires LW-CBL-LUMPWRLITE-6-RGB-TAIL.
	LW-CBL-LUMPWRLITE-120-RGB-EXTN RGB LumenPower Lite 10 ft (3 m) long extension cable with a jack on one end and a plug on the other end. For fixture-to-power supply or fixture-to-control connections, this cable requires LW-CBL-LUMPWRLITE-6-RGB-TAIL.
	LW-CBL-LUMPWRLITE-BLANK A sealing cap that maintains IP65 rating of unmated connectors in a wet location installation.

LIGHTWILD LUMENPOWER STANDARD AND LUMENPOWER PLUS LINEARS

Photo	Part No. and Description
	LW-CBL-LUMPWR-6-SC-TAIL Single-color LumenPower Standard or Plus 6 inch (150 mm) cable with stripped wires on one end and a fixture connection on the other. Stripped wires connect to a power supply or LightWild control unit. Specify one per home run.
	LW-CBL-LUMPWR-6-RGB-TAIL RGB LumenPower Standard or Plus 6 inch (150 mm) cable with stripped wires on one end and a fixture connection on the other. Stripped wires connect to a power supply or LightWild control unit. Specify one per home run.
	LW-CBL-LUMPWR-36-SC-EXTN Single color LumenPower Standard or Plus 40 inch (1 m) long extension cable with a jack on one end and a plug on the other end. For fixture-to-power supply or fixture-to-control connections, this cable requires LW-CBL-LUMPWR-6-SC-TAIL.
	LW-CBL-LUMPWR-120-SC-EXTN Single color LumenPower Standard or Plus 10 ft (3 m) long extension cable with a jack on one end and a plug on the other end. For fixture-to-power supply or fixture-to-control connections, this cable requires LW-CBL-LUMPWR-6-SC-TAIL.

Photo	Part No. and Description
	LW-CBL-LUMPWR-36-RGB-EXTN RGB LumenPower Standard or Plus 40 inch (1 m) long extension cable with a jack on one end and a plug on the other end. For fixture-to-power supply or fixture-to-control connections, this cable requires LW-CBL-LUMPWR-6-RGB-TAIL.
	LW-CBL-LUMPWR-120-RGB-EXTN RGB LumenPower Standard or Plus 10 ft (3 m) long extension cable with a jack on one end and a plug on the other end. For fixture-to-power supply or fixture-to-control connections, this cable requires LW-CBL-LUMPWR-6-RGB-TAIL.
	LW-CBL-LUMPWR-BLANK A sealing cap that maintains IP65 rating of unmated connectors in a wet location installation.

ALL CABLES ARE UL LISTED.

LIGHTWILD PANELS

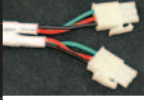

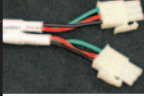

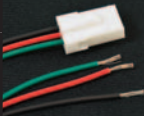

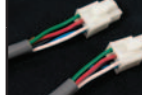

Photo	Part No. and Description
	LW-CBL-PNL-18-SC-EXTN Single-color Panel 18 inch (45 cm) interconnect cable for fixture-to- fixture connections. For fixture-to-power supply or fixture-to- control connections, this cable requires LW-CBL-PNL-5-SC-TAIL.
	LW-CBL-PNL-36-SC-EXTN Single-color Panel 3 foot (90 cm) interconnect cable for fixture-to- fixture connections. For fixture-to-power supply or fixture-to- control connections, this cable requires LW-CBL-PNL-5-SC-TAIL.
	LW-CBL-PNL-120-SC-EXTN Single-color Panel 10 foot (3m) interconnect cable for fixture-to- fixture connections. For fixture-to-power supply or fixture-to- control connections, this cable requires LW-CBL-PNL-5-SC-TAIL.
	LW-CBL-PNL-5-SC-TAIL Single-color Panel 5 inch (12.5cm) cable with stripped wires on one end and a fixture connection on the other. Stripped wires connect to a power supply or LightWild control unit. Specify one per home run.

Photo	Part No. and Description
	LW-CBL-PNL-18-RGB-EXTN RGB Panel 18 inch (45 cm) interconnect cable for fixture-to- fixture connections. For fixture-to-power supply or fixture-to- control connections, this cable requires LW-CBL-PNL-5-RGB-TAIL.
	LW-CBL-PNL-36-RGB-EXTN RGB Panel 3 foot (90 cm) interconnect cable for fixture-to- fixture connections. For fixture-to-power supply or fixture-to- control connections, this cable requires LW-CBL-PNL-5-RGB-TAIL.
	LW-CBL-PNL-120-RGB-EXTN RGB Panel 10 foot (3m) interconnect cable for fixture-to- fixture connections. For fixture-to-power supply or fixture-to- control connections, this cable requires LW-CBL-PNL-5-RGB-TAIL.
	LW-CBL-PNL-5-RGB-TAIL RGB Panel 5 inch (12.5cm) cable with stripped wires on one end and a fixture connection on the other. Stripped wires connect to a power supply or LightWild control unit. Specify one per home run.

LIGHTWILD TILES

All cable is contractor supplied.

ALL CABLES ARE UL LISTED.
