VW of America Headquarters

Herndon, Virginia

LightWild Products: LightWild Tiles

The Volkswagen Group of America United States headquarters is located in a six-story, 185,000 square foot office building in Herndon, VA. The project utilizes twenty blue LED 12x12-inch (300x300 mm) LightWild Tiles to represent the Volkswagen brand color in the first floor lobby area. When lit, the tiles can be seen through the open atrium from the top floor, six stories up.
