Mitchell's Ocean Club

Columbus, Ohio

LightWild Engineered Solutions

Cameron Mitchell Restaurants delivered a new concept to its diners in August 2006 with a remodeled Mitchell's Ocean Club, a fine dining seafood restaurant featuring fish, steaks and cocktails at the Easton Town Center in Columbus, Ohio. The restaurant features retro elements of a 50's supper club with warm finishes and rich woods combined with contemporary influences. Included is sheer drapery that is illuminated with green and blue light from 88 LightWild LED modules.
